

# Year 11 Geography Learning Programme term 2

Topic	Objectives/content	Classroom activities	Recommended home learning	Assessment
<p>The Living World</p> <p>Urban issues and challenges</p> <p>The changing economic world</p> <p>The challenge of Resource Management</p> <p>Food</p> <p>Geographical Applications</p>	<p>See SOW for content.</p> <p>Geographical applications: is critical thinking and problem-solving element to the assessment structure. The assessment will provide students with the opportunity to demonstrate geographical skills and applied knowledge and understanding by looking at a particular issue(s) derived from the specification using secondary sources. The issue(s) will arise from any aspect of the compulsory subject content, but may extend beyond it through the use of resources in relation to specific unseen contexts. This section is synoptic and the assessment will require students to use their learning of more than one of the themes in units 3.1 and 3.2 so that they can analyse a geographical issue at a range of scales, consider and select a possible option in relation to the issue(s) and justify their decision.</p> <p>A resource booklet will be available twelve weeks before the date of the exam so that students have the opportunity to work through the resources, enabling them to become familiar with the material. Students will not be allowed to take the original resource booklet into the exam room but will be issued with a clean copy in the exam. Sources could include maps at different scales, diagrams, graphs, statistics, photographs, satellite images, sketches, extracts from published materials, and quotes from different interest groups.</p>	<p>Past AQA Specification B and IGCSE papers may prove useful.</p> <p>Use different revision strategies to learn the key knowledge.</p>	<p>GCSE questions linked to SOW.</p> <p>Revision for GCSE exam.</p>	<p>GCSE exam</p>
